

Safe Places App

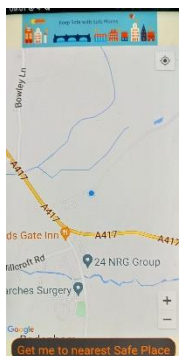

Our free-to-use Safe Places app shows all the safe places in Herefordshire.

They are free-to-use by anyone with a smart phone. They are available to download from both the App Store and Google play.

Go to the store on your mobile and write 'safe places' in the search box. The safe places logo will appear. It will then download. You will need enough data space on your phone.

“Get me to nearest Safe Place”

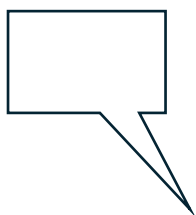

These words appear on the bottom of the screen when you open the app. Press the words and you will be directed to the nearest open Safe Place.

If no Safe Place is available in a 15-minute walk, the app will offer to call 101, the non-emergency number.

Voice Activated App

The app can be used by people who find using the app difficult. Also people with visual impairments. Just talk into your phone.

You can get FREE HELP with the app and setting up the Voice Activation at any O2 store in Hereford 

You do not have to be an O2 customer.

Visit any O2 store – they may be able to help you straightaway. If not, you may need to arrange an appointment.

For all the safe places across England and parts of Wales go to www.safeplaces.org.uk/member-schemes/
